

FLUORESCENT

240 Series *Vandal-Resistant Ceiling Luminaire*

This fluorescent luminaire with standard electronic ballast combines optimal light distribution and energy efficiency with impact resistance in an aesthetically attractive design. Optional emergency battery system eliminates the need for special-purpose lighting. For indoor and protected outdoor uses, this luminaire is perfect for schools, hospitals, prisons; and public, commercial, and government buildings.

Specifications

Lens:	Pressure formed of clear UV-stabilized polycarbonate in average $\frac{1}{8}$ " thickness. Clear lens is enhanced with prisms engineered for maximum light control.
Base Plate:	Die formed of 20-gauge steel or aluminum with high-reflectance white baked enamel finish applied after forming . Options: 16-gauge steel housing — consult factory for availability.
Gasket:	Concealed polyethylene gasket is bonded to lens to create a tight seal against contaminants and moisture.
Wireway:	Tool-less tab attachment facilitates installation and removal of wireway channel.
Ballast:	Electronic, thermally protected Class P, energy-saving, High Power Factor ballast for 120V-277V. 32-FL-T8 Instant-start 0°F (-18°C).
Wet Location:	Covered Ceiling
Lamps: (Optional)	Uses two 32FLT8.
Emergency Battery Pack: (Optional)	Nickel cadmium battery is maintenance free with a life of 7-10 years and a 90-minute emergency operating time. Battery is charging during normal operations of fixture. During power interruption, lamp will switch to emergency operation. When A.C. power is restored, lamp is switched back to the ballast and the battery is recharged within 24 hours. Note: Can be wired to operate only during power interruption. (See Emergency Fixture Information Sheet, Form 1568).
Conduit Housing: (Optional)	Die formed of 16-gauge steel with baked enamel white finish. Knockout for $\frac{1}{2}$ " conduit on each end and six mounting holes is limitedly available — consult factory for availability.
Corner Bracket: (Optional)	Die formed of 20-gauge steel with baked enamel white finish — consult factory for availability.
Hardware:	Six stainless steel philips head screws or optional tamperproof screws are provided for lens attachment. Mounting hardware provided by others.
